

THE
PHILOSOPHICAL MAGAZINE

EDITOR

PROFESSOR N. F. MOTT, M.A., D.Sc., F.R.S.

EDITORIAL BOARD

SIR LAWRENCE BRAGG, O.B.E., M.C., M.A., D.Sc., F.R.S.

SIR GEORGE THOMSON, M.A., D.Sc., F.R.S.

PROFESSOR A. M. TYNDALL, C.B.E., D.Sc., F.R.S.

VOL. IV.—EIGHTH SERIES

JANUARY—DECEMBER 1959

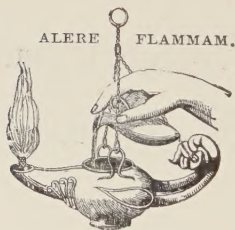

LONDON:

TAYLOR & FRANCIS LTD, RED LION COURT, FLEET STREET, E.C.4.

“Meditationis est perscrutari occulta; contemplationis est admirari perspicua.... Admiratio generat quæstionem, quæstio investigationem, investigatio inventionem.”—*Hugo de S. Victore.*

——“Cur spirent venti, cur terra dehiscat,
Cur mare turgescat, pelago cur tantus amaror,
Cur caput obscura Phœbus furrugine condât,
Quid toties diros cogat flagrare cometas,
Quid pariat nubes, veniant cur fulmina cœlo,
Quo micet igne Iris, superos quis conciat orbes
Tam vario motu.”

J. B. Pinelli ad Mazonium.

2.4
pt. 1

CONTENTS OF VOL. IV. Nos. (37-48)

(EIGHTH SERIES)

NUMBER 37—JANUARY

| | PAGE |
|---|------|
| Experimental Investigations of Exciton Spectra in Ionic Crystals. By S. NIKITINE, Laboratoire de Spectroscopie et d'Optique du Corps Solide, Institut de Physique, Université de Strasbourg..... | 1 |
| Crystallinity Effects in the Electron Microscopy of Polyethylene. By A. W. AGAR, Aeon Laboratories, Egham, Surrey, F. C. FRANK and A. KELLER, H. H. Wills Physics Laboratory, University of Bristol | 32 |
| Quench Hardening in Sodium Chloride Crystals. By B. H. KEAR and P. L. PRATT, Department of Physical Metallurgy, University of Birmingham..... | 56 |
| Direct Observations of Defects in Quenched Gold. By J. SILCOX and P. B. HIRSCH, Crystallographic Laboratory, Cavendish Laboratory, Cambridge | 72 |
| Cosmic Ray Cut-off Rigidities and the Earth's Magnetic Field. By J. J. QUENBY and W. R. WEBBER, Imperial College of Science and Technology, London..... | 90 |
| The Photo Creation and Destruction of F Centres. By R. V. HESKETH, University of Glasgow | 114 |
| A Study of the Palaeomagnetism of the Bushveld Gabbro. By D. I. GOUGH and C. B. VAN NIEKERK, National Physical Research Laboratory, Council for Scientific and Industrial Research, Pretoria.... | 126 |
| Correspondence : | |
| Further Observations of Stroh-cracks in Magnesium Oxide Single Crystals. By R. J. STOKES, T. L. JOHNSTON and C. H. LI, Honeywell Research Center, Hopkins, Minnesota, U.S.A. | 137 |
| The Ejection of Atoms from Gold Crystals During Proton Irradiation. By M. W. THOMPSON, Metallurgy Division, A.E.R.E., Harwell .. | 139 |
| Reviews of Books | 142 |

NUMBER 38—FEBRUARY

| | |
|--|-----|
| The Effects of Anisotropic Relaxation Times on the Hall Coefficients of some Dilute Alloys of Silver. By J. R. A. COOPER and S. RAIMES, Department of Mathematics, Imperial College, London..... | 145 |
| The Resistance of Diamond to Abrasion. By EILEEN M. WILKS and J. WILKS, Clarendon Laboratory, Oxford..... | 158 |
| Some Properties of Crystals of Silver Chloride containing Traces of Copper Chlorides. By A. S. PARASNIS and J. W. MITCHELL, H. H. Wills Physical Laboratory, University of Bristol..... | 171 |
| On the Knight Shift of Alloys. By A. BLANDIN, E. DANIEL and J. FRIEDEL, Physique des Solides, 60 Boulevard Saint Michel, Paris VI .. | 180 |
| Measurements of the Optical Constants of Mercury and Mercury-Indium Amalgams in the Spectral Region 4000 to 17 000 cm^{-1} . By J. N. HODGSON, Physics Department, University College of North Staffordshire. | 183 |

| | PAGE |
|--|------|
| The Effect of Grain Size on the Tensile Properties of High-purity Molybdenum at Room Temperature. By A. A. JOHNSON, Physical Metallurgy Department, Imperial College, London, S.W.7..... | 194 |
| Observations on Single Crystals of an Isotactic Polyolefin: Morphology and Chain Packing in Poly-4-Methyl-Pentene-1. By F. C. FRANK, A. KELLER and A. O'CONNOR, H. H. Wills Physics Laboratory, University of Bristol | 200 |
| Nucleon Clusters in the Nuclear Surface. By D. H. WILKINSON, Clarendon Laboratory, Oxford..... | 215 |
| On the Low Temperature Optical Absorption of $\text{CoCl}_2 \cdot 6\text{H}_2\text{O}$ and $\text{CoBr}_2 \cdot 6\text{H}_2\text{O}$. By R. PAPPALARDO, H. H. Wills Physical Laboratory, University of Bristol and Radiation Laboratory, University of Pittsburgh, Pa. | 219 |
| Intensity and Fine Structure of the Main Optical Absorption Bands in Hydrated Cobaltous Salts. By SHOICHIRO KOIDE, H. H. Wills Physics Laboratory, University of Bristol..... | 243 |
| Adhesion of Evaporated Aluminium Films with Underlayers of Nickel, Cobalt and Chromel. By C. WEAVER and R. M. HILL, Department of Natural Philosophy, The Royal College of Science and Technology, Glasgow | 253 |
| Correspondence: | |
| The Fatigue of Metals at 1.7°K . By R. K. MACCRONE, R. D. MCCAMMON and H. M. ROSENBERG, The Clarendon Laboratory, Oxford | 267 |
| The Magnetic Susceptibility of Ferrous Fluosilicate at Low Temperatures. By L. C. JACKSON, H. H. Wills Physical Laboratory, University of Bristol..... | 269 |

NUMBER 39—MARCH

| | |
|---|-----|
| The Heat Capacity of Pure Silicon and Germanium and Properties of their Vibrational Frequency Spectra. By P. FLUBACHER, A. L. LEADBETTER and J. A. MORRISON, Division of Pure Chemistry, National Research Council, Ottawa, Canada..... | 273 |
| The Positions of Dislocations in Arrays. By A. K. HEAD, Division of Tribophysics, Commonwealth Scientific & Industrial Research Organization, University of Melbourne, Australia..... | 295 |
| The Deformation of Lithium, Sodium and Potassium at Low Temperatures: Tensile and Resistivity Experiments. By D. HULL, A.E.R.E., Harwell and H. M. ROSENBERG, The Clarendon Laboratory, Oxford | 303 |
| The Preparation of Smooth Single Crystal Surfaces of Silver by an Evaporation Technique. By D. W. PASHLEY, Physics Department, Imperial College, London, S.W.7..... | 316 |
| The Observation of Dislocations in Thin Single Crystal Films of Gold Prepared by Evaporation. By D. W. PASHLEY, Tube Investments Research Laboratories, Hinxton Hall, Cambridge..... | 324 |
| The Excitation of Molecular Vibration and Rotation by Impact of Slow Electrons. By H. S. W. MASSEY, F.R.S., University College, London | 336 |
| A Generalization of Grüneisen's Theory of Solids and its Application to Solid Argon. By R. O. DAVIES and S. PARKE, Physics Department, Queen Mary College, Mile End Road, London..... | 341 |

| | PAGE |
|---|------|
| The Electromechanical Properties of Barium Titanate. By H. L. ALLSOPP and D. F. GIBBS, H. H. Wills Physics Laboratory, University of Bristol..... | 359 |
| The Thermoelectric Power of the Alkali Metals at Low Temperatures. By J. M. ZIMAN, Cavendish Laboratory, University of Cambridge..... | 371 |
| Correspondence : | |
| Measurements of Thermoelectricity below 1°K—III. By D. K. C. MACDONALD, W. B. PEARSON and I. M. TEMPLETON, Division of Pure Physics, National Research Council, Ottawa, Canada..... | 380 |
| Observation by x-ray Diffraction of Dislocations in a Diamond. By F. C. FRANK, H. H. Wills Physics Laboratory, University of Bristol and A. R. LANG, Division of Engineering and Applied Physics, Harvard University, Cambridge 38, Massachusetts, U.S.A..... | 383 |
| Probability Density of Electron Separation in a Uniform Electron Gas. By N. H. MARCH and W. H. YOUNG, Department of Physics, The University, Sheffield..... | 384 |
| Reviews of Books..... | 390 |

NUMBER 40—APRIL

| | |
|--|-----|
| Thermally Activated Glide in Face-centred Cubic Metals and its application to the Theory of Strain Hardening. By Z. S. BASINSKI, Division of Pure Physics, National Research Council, Ottawa, Canada.... | 393 |
| On the Possibility of Thermoelectric Refrigeration at very Low Temperatures. By D. K. C. MACDONALD, E. MOOSER, W. B. PEARSON, I. M. TEMPLETON and S. B. WOODS, Division of Pure Physics, National Research Council, Ottawa, Canada | 433 |
| Surface Growths and Whiskers on an Aluminium-Magnesium Alloy. By P. J. E. FORSYTH, P. G. PARTRIDGE and D. A. RYDER, Ministry of Supply, Royal Aircraft Establishment, Farnborough, Hants..... | 447 |
| X-ray Line Broadening in Plastically Deformed Calcite. By M. S. PATERSON, Department of Geophysics, The Australian National University, Canberra, Australia..... | 451 |
| The Detection of Dislocations by Low Temperature Heat Conductivity Measurements. By JENIFER N. LOMER and H. M. ROSENBERG, The Clarendon Laboratory, Oxford..... | 467 |
| Nuclear Magnetic Resonance in Silver-Cadmium. By L. E. DRAIN, Metallurgy Division, A.E.R.E., Harwell..... | 484 |
| A Possible Determination of the Activation Energy for Self-diffusion in Aluminium. By T. FEDERIGHI, Istituto Sperimentale dei Metalli Leggeri, C.P. 129, Novara, Italy..... | 502 |
| Helical Dislocations in Quenched Aluminium-4% Copper Alloys. By G. THOMAS, Department of Metallurgy, Cambridge University and M. J. WHELAN, Crystallographic Laboratory, Cavendish Laboratory, Cambridge, England..... | 511 |
| Correspondence: | |
| Some New Yield Phenomena in Molybdenum. By A. A. JOHNSON and D. E. PEACOCK, Physical Metallurgy Department, Imperial College, London, S.W.7..... | 528 |
| The Direct Observation of Metallic Surfaces in the Electron Microscope. By K. THOMAS and K. F. HALE, Communication from the National Physical Laboratory, Teddington, Middlesex..... | 531 |
| Reviews of Books..... | 533 |

NUMBER 41—MAY

| | PAGE |
|---|------|
| Yield Point Phenomena in Alpha Brass and other Face-Centred Cubic Metals. By G. F. BOLLING, Department of Physical Metallurgy, University of Birmingham | 537 |
| Impurity Conduction in Indium-Doped Germanium. By J. S. BLAKEMORE, Honeywell Research Center, Hopkins, Minnesota | 560 |
| The Martensite Transformation in Thin Foils of Iron-Nitrogen Alloys. By W. PITTSCH, Max-Planck-Institut für Eisenforschung Düsseldorf, Germany | 577 |
| Strong Hydromagnetic Disturbances in a Collision-free Plasma. By J. W. DUNGEY, Department of Mathematics, King's College, Newcastle | 585 |
| A Domain Theory of Magnetic Grains in Rocks. By F. D. STACEY, Department of Geophysics, Australian National University, Canberra, Australia | 594 |
| Observations of Dislocations and Precipitates in Aluminium Alloys. By G. THOMAS, Metallurgy Department, Cambridge University | 606 |
| The Resistance Minimum in Dilute Alloys of Tin in Copper. By W. B. PEARSON, D. M. RIMEK and I. M. TEMPLETON, Division of Pure Physics, National Research Council, Ottawa, Canada | 612 |
| Experiments on the Resistance Minimum: The Effects of Certain Solutes in Copper, Silver and Gold. By W. B. PEARSON, Division of Pure Physics, National Research Council, Ottawa, Canada | 622 |
| The Atomic Diffusion of Chromium in the Titanium-Chromium System. By A. J. MORTLOCK and D. H. TOMLIN, Physics Research Laboratory, University of Reading | 628 |
| On the Release of Cold-work in Cadmium in Terms of Mechanical Properties. By R. KAMEL and A. E. ATTIA, Faculty of Science, Cairo University, Giza, Egypt | 644 |
| On the Derivation of Cosmic Ray Specific Yield Functions. By W. R. WEBBER and J. J. QUENBY, Imperial College of Science and Technology, London | 654 |
| Some Dislocation Interactions in Simple Ionic Crystals. By B. H. KEAR, The Franklin Institute Laboratories, Philadelphia 3, Pennsylvania, U.S.A., A. TAYLOR and P. L. PRATT, Department of Physical Metallurgy, University of Birmingham, England | 665 |

NUMBER 42—JUNE

| | |
|--|-----|
| The Growth of Grain-boundary Voids Under Stress. By D. HULL and D. E. RIMMER, Atomic Energy Research Establishment, Harwell | 673 |
| The Lattice Thermal Conductivity of Dilute Alloys of Silver and Gold. By G. K. WHITE, Division of Physics, C.S.I.R.O., Sydney, Australia, S. B. WOODS and M. T. ELFORD, National Research Council, Ottawa, Ontario, Canada | 688 |
| The Yield Point of a Super-lattice. By N. BROWN, University of Pennsylvania and Cavendish Laboratory (Guggenheim Fellow 1958-1959) | 693 |
| The Propagation of Sound in a Binary Liquid Mixture. By A. E. BROWN and E. G. RICHARDSON, King's College, Newcastle upon Tyne | 705 |
| An Electron Microscope Study of Stainless Steel Deformed in Fatigue and Simple Tension. By P. B. HIRSCH, P. G. PARTRIDGE and R. L. SEGALL, Crystallographic Laboratory, Cavendish Laboratory, Cambridge | 721 |

| | PAGE |
|--|------|
| The Silver-based Heusler Alloys. By E. O. HALL, Department of Physics, University of Sheffield..... | 730 |
| The Absorption of Sound in Liquid Helium I under Pressure. By J. A. NEWELL and J. WILKS, Clarendon Laboratory, Oxford..... | 745 |
| Remanent Magnetism of Late Secondary and Early Tertiary British Rocks. By R. L. WILSON, Department of Physics, Imperial College, London..... | 750 |
| The Helium Film formed from the Vapour Phase. By L. G. GRIMES and L. C. JACKSON, H. H. Wills Physical Laboratory, University of Bristol..... | 756 |
| The Propagation of Fading Waves. By R. P. MERCIER, The Cavendish Laboratory, Cambridge..... | 763 |
| Correspondence: | |
| The Hardening of Copper by Neutron Irradiation. By M. A. ADAMS and P. R. B. HIGGINS, Metallurgy Division, Atomic Energy Research Establishment, Harwell..... | 777 |
| Variation of Young's Modulus of Fused Quartz Fibre with Diameter. By D. J. TRITTON, Cavendish Laboratory, Cambridge | |
| Waves in Electron Clouds. By J. R. PIERCE and L. R. WALKER, Bell Telephone Laboratories Inc., Murray Hill, New Jersey, U.S.A..... | 780 |
| Reviews of Books..... | 783 |
| | 784 |

NUMBER 43—JULY

| | |
|--|-----|
| The Lattice Specific Heats of Solid Hydrogen and Deuterium. By R. W. HILL and O. V. LOUNASMAA, Clarendon Laboratory, Oxford..... | 785 |
| The Reaction ${}^7\text{Li}(\alpha\gamma){}^{11}\text{B}$. By G. A. JONES, C. M. P. JOHNSON and D. H. WILKINSON, Cavendish Laboratory, Cambridge..... | 796 |
| Lattice Spacing Relationships in Magnesium Solid Solutions. By D. HARDIE and R. N. PARKINS, Department of Metallurgy, University of Durham, King's College, Newcastle upon Tyne, 1..... | 815 |
| Brillouin Zones and Crystal Structure Factors. By T. H. K. BARRON, Department of Physical and Inorganic Chemistry, University of Bristol and GASTON FISCHER, Division of Pure Physics, National Research Council of Canada, Ottawa..... | 826 |
| Time-dependent Spectra of Electroluminescent ZnS : Cu, Pb. By J. WEISZBURG, J. SCHANDA and Z. BODÓ, Industrial Research Institute for Telecommunication Technique and Institute for Technical Physics of the Hungarian Academy of Sciences, Budapest..... | 830 |
| The Specific Heat of Cerium Magnesium Nitrate below 10°K . By C. A. BAILEY, The Clarendon Laboratory, Oxford..... | 833 |
| Optical Transition Radiation from Protons Entering Metal Surfaces. By P. GOLDSMITH and J. V. JELLEY, Atomic Energy Research Establishment, Harwell..... | 836 |
| The Lattice Thermal Conductivity of Copper Alloys: Effect of Plastic Deformation and Annealing. By W. R. G. KEMP, P. G. KLEMENS and R. J. TAINSH, Division of Physics, Commonwealth Scientific and Industrial Research Organization, Sydney, Australia..... | 845 |
| The Interactions of π^- -mesons with Complex Nuclei in the Energy Range (100–800) mev. I: The Interaction Lengths and Elastic Scattering of 88 mev π^- -mesons in G5 Emulsion. By J. E. ALLEN, A. J. APOSTOLAKIS, Y. J. LEE, J. V. MAJOR and E. PEREZ FERREIRA, The Physics Department, The Durham Colleges in the University of Durham, Durham..... | 858 |

| | PAGE |
|--|------|
| Growth of Electron Space-charge and Radio Waves in Moving Ion Streams. By R. Q. TWISS, Oxford and Cambridge University Club, London, S.W.1..... | 868 |
| Editorial Note | 876 |
| Correspondence: | |
| On a Feature of Galactic Radio Emission. By HUGH M. JOHNSON, Mount Stromlo Observatory, Canberra..... | 877 |
| Dislocation Structures Observed in High-purity Recrystallized Aluminium by x-ray Diffraction. By A. R. LANG, Division of Engineering and Applied Physics, Harvard University, Cambridge 38, Massachusetts, U.S.A. and G. MEYRICK, H. H. Wills Physics Laboratory, University of Bristol..... | 878 |
| The Strain Dependence of the Residual Resistivity of Potassium. By Z. S. BASINSKI, J. S. DUGDALE and D. GUGAN, Division of Pure Physics, National Research Council, Ottawa, Canada..... | 880 |
| Corrigendum | 883 |
| Reviews of Books..... | 884 |

NUMBER 44—AUGUST

| | |
|---|-----|
| The Effect of Surface Films on the Slip of Substrates. By T. EVANS and D. R. SCHWARZENBERGER, Tube Investments Research Laboratories, Hinxton Hall, Nr. Saffron Walden, Essex | 889 |
| Isotope Effect in Vacancy Diffusion. By K. THARMALINGAM and A. B. LIDIARD, Department of Physics, University of Reading, Berkshire | 899 |
| An Unusual Grain Boundary Diffusion Effect in Impure Nickel. By H. MYKURA, Department of Natural Philosophy, The University, Glasgow | 907 |
| Dislocation Arrangements in Aluminium Deformed in Tension or by Fatigue. By R. L. SEGALL and P. G. PARTRIDGE, Crystallographic Laboratory, Cavendish Laboratory, Cambridge | 912 |
| The Relationship between Plastic Flow and the Fracture Mechanism in Magnesium Oxide Single Crystals. By R. J. STOKES, T. L. JOHNSTON and C. H. LI, Honeywell Research Center, Hopkins, Minnesota..... | 920 |
| Nuclear Disintegrations Produced by 900 mev Neutrons. By W. T. MORTON, Department of Natural Philosophy, University of Glasgow and B. A. MUNIR, Physics Department, University of Birmingham.... | 933 |
| The Influence of Solute Atoms on the Damping due to Dislocations in Iron Alloys. By P. M. ROBINSON and R. RAWLINGS, Department of Metallurgy and Fuel Technology, University College, Cardiff..... | 938 |
| Nuclear Orientation and the Hyperfine Structure Coupling in Cobalt Metal. By M. A. GRACE, C. E. JOHNSON, N. KURT, R. G. SCURLOCK and R. T. TAYLOR, The Clarendon Laboratory, Oxford | 948 |
| The Solubility of Krypton in Liquid Lead, Tin and Silver. By G. W. JOHNSON and R. SHUTTLEWORTH, Metallurgy Department, The University of Leeds | 957 |
| Ductile Fracture in Metals. By K. E. PUTTICK, Department of Metallurgy, Cambridge | 964 |
| Examination of Fission Fragment Tracks with an Electron Microscope. By E. C. H. SILK and R. S. BARNES, A.E.R.E., Harwell..... | 970 |
| The Apparent Sidereal Daily Variation of Cosmic Ray Intensity During the Recent Sunspot Minimum. By S. P. BALIGA and T. THAMBYAHPILLAI, Physical Laboratories, University of Ceylon, Colombo..... | 973 |

Correspondence :

PAGE

| | |
|---|-----|
| The Generation of Point Defects by Deformation and Fatigue in Alkali Halides. By R. W. DAVIDGE, C. E. SILVERSTONE and P. L. PRATT, Department of Physical Metallurgy, University of Birmingham..... | 985 |
| Reviews of Books | 988 |

NUMBER 45—SEPTEMBER

| | |
|---|------|
| The Analysis of 4.5 bev Negative Pion Interactions in Nuclear Emulsion. By H. H. ALY, J. G. M. DUTHIE and C. M. FISHER, H. H. Wills Physical Laboratory, University of Bristol..... | 993 |
| Magnetic Moments and Electron Transfer in Nickel-rich Binary Alloys. By J. CRANGLE and M. J. C. MARTIN, Physics Department, The University, Sheffield 10..... | 1006 |
| The Multiple Scattering of Particles of Opposite Charge. By I. S. HUGHES and D. SINCLAIR, Department of Natural Philosophy, University of Glasgow | 1013 |
| A Study of Growth Defects in Face-centred Cubic Metal Foils Prepared by Evaporation. By J. W. MATTHEWS, University of the Witwatersrand, Johannesburg | 1017 |
| Observation of the Suppression Effect on Bremsstrahlung. By P. H. FOWLER, D. H. PERKINS and K. PINKAU, H. H. Wills Physics Laboratory, University of Bristol..... | 1030 |
| Threshold Effects in High Energy Reactions. By A. I. BAZ, Atomic Energy Institute, Moscow, USSR..... | 1035 |
| On a New Mode of Deformation in Indium Antimonide. By J. W. ALLEN, Services Electronics Research Laboratory, Baldock, Herts..... | 1046 |
| The Interaction Rates of Stopped Negative Muons in Various Elements. By W. B. GILBOY and R. M. TENNENT, Physics Department, University of Leeds..... | 1055 |
| The Observation of Domain Structure in Magnetic Thin Films by Means of the Kerr Magneto-Optic Effect. By M. PRUTTON, International Computers and Tabulators Ltd., Stevenage..... | 1063 |
| The 'Waveguide Mode' Theory of Radio Wave Propagation when the Ionosphere is not Sharply Banded. By D. W. BARRON, University Mathematical Laboratory, Cambridge | 1068 |
| Correspondence : | |
| Lattice Dynamics of Alkali Halides. By W. COCHRAN, General Physics Branch, Chalk River Project, Atomic Energy of Canada Limited, Chalk River, Ontario..... | 1082 |
| Electron Distribution in Transition Metals. By A. J. FREEMAN and R. J. WEISS, Materials Research Laboratory, Ordnance Materials Research Office, Watertown, Massachusetts..... | 1086 |
| Dislocation Sources in Quenched Aluminium-based Alloys. By K. H. WESTMACOTT, D. HULL and R. S. BARNES, Metallurgy Division, A.E.R.E., Harwell and R. E. SMALLMAN Department of Physical Metallurgy, The University of Birmingham..... | 1089 |
| Experiments on Nuclear Cooling. By M. V. HOBDEN and N. KURTI, Clarendon Laboratory, Oxford..... | 1092 |
| Reviews of Books..... | 1096 |

NUMBER 46—OCTOBER

| | PAGE |
|---|------|
| The Strength of Glass Fibres. By D. G. HOLLOWAY, Physics Department, University College of North Staffordshire..... | 1101 |
| Ageing Effects in Bimetallic Films. By C. WEAVER and R. M. HILL, Department of Natural Philosophy, The Royal College of Science and Technology, Glasgow..... | 1107 |
| The Magnetic Susceptibility of Vanadium between 20 and 293°K. By B. G. CHILDS, W. E. GARDNER and J. PENFOLD, Atomic Energy Research Establishment, Harwell, Berks..... | 1126 |
| Crystal Fine Structure, Conductivity and Cation Self-diffusion in Sodium Chloride. By I. M. HOODLESS and S. J. THOMSON, Londonderry Laboratory for Radiochemistry, University of Durham Science Laboratories, South Road, Durham..... | 1131 |
| Dislocation Etch Pits in Zinc Crystals. By JOY GEORGE, National Research Fellow, Department of Physics, University College, Trivandrum, Kerala, India..... | 1142 |
| 3d Band Structure of some Transition Elements. By ELLINOR F. BELDING, Vassar College, Poughkeepsie, N.Y..... | 1145 |
| Extension of the Theory of the Effects of Anisotropic Relaxation Times on the Hall Coefficients of some Dilute Alloys of Silver. By J. R. A. COOPER and S. RAIMES, Department of Mathematics, Imperial College, London..... | 1149 |
| Coulomb Scattering in a Magnetic Field. By P. A. SWEET, University of London Observatory, Mill Hill Park, N.W.7..... | 1155 |
| The Effect of Added Titanium on the Magnetic Behaviour of Haematite. By D. M. FINLAYSON and T. SMITH, Department of Natural Philosophy, Marischal College, Aberdeen..... | 1160 |
| Soft x-ray Emission Spectra from Lithium and Lithium-Magnesium Alloys. By J. A. CATTERALL and J. TROTTER, Communication from the National Physical Laboratory..... | 1164 |
| The Statistical Thermodynamics of a Gas with Long and Short-range Forces. By S. F. EDWARDS, Theoretical Physics Department, University of Manchester..... | 1171 |
| The Thermal Conductivity of Water: An Investigation of a Reported Anomaly. By R. W. POWELL and A. R. CHALONER, Communication from the National Physical Laboratory..... | 1183 |
| The Effect of Quenching on the Formation of G.P. Zones and θ' in Al Cu-Alloys. By J. M. SILCOCK, Liverpool University..... | 1187 |
| Reviews of Books..... | 1195 |

NUMBER 47—NOVEMBER

| | |
|--|------|
| Permeation of Hydrogen through Metals. By R. ASH and R. M. BARRER, Physical Chemistry Laboratories, Chemistry Department, Imperial College, London, S.W.7..... | 1197 |
| Pressure Dependence of the Critical Field in Indium Single Crystals. By H. ROHRER, Institut für Kalorische Apparate und Kältetechnik Eidgenössische Technische Hochschule, Zürich..... | 1207 |
| Quenching Defects in Binary Aluminium Alloys. By G. THOMAS, Metallurgy Department, University of Cambridge..... | 1213 |
| Twinning in Cadmium Dendrites. By P. B. PRICE, H. H. WILLS Physical Laboratory, University of Bristol..... | 1229 |

| | PAGE |
|--|------|
| Accurate Determination of the Lattice Parameters of Beryllium. By D. R. SCHWARZENBERGER, Tube Investments Research Laboratories, Hinxton Hall, Cambridge | 1242 |
| The Solar Diurnal Variation of the Intensity of the Nucleonic Component of the Cosmic Radiation. By P. L. MARSDEN and QAMRUN NESSA BEGUM, Physics Department, University of Leeds..... | 1247 |
| A Non-mesonic Decay of a ^{11}B Hyperfragment. By D. EVANS, B. D. JONES and J. ZAKRZEWSKI, H. H. Wills Physics Laboratory, Bristol .. | 1255 |
| The Plastic Deformation of Single Crystals of an Aluminium-Silver Alloy. By A. KELLY, A. LASSILA and S. SATO, Department of Metallurgy, Northwestern University, Evanston, Illinois | 1260 |
| Correspondence : | |
| Lattice Vibrational Spectrum of Sodium Chloride. By J. R. HARDY, H. H. Wills Physics Laboratory, University of Bristol.. | 1278 |
| An Extension of Boltzmann's <i>H</i> -Theorem. By S. SIMONS and P. J. HIGGINS, Queen Mary College, University of London..... | 1282 |
| Electrical Resistance in Liquid Metals and the Change on Melting. By D. K. C. MACDONALD, Division of Pure Physics, National Research Council, Ottawa | 1283 |
| Facets and Anomalous Solute Distributions in Indium-Antimonide Crystals. By K. F. HULME and J. B. MULLIN, Ministry of Supply, Royal Radar Establishment, Great Malvern, Worcestershire | 1286 |
| Reviews of Books | 1289 |

NUMBER 48—DECEMBER

| | |
|---|------|
| Fatigue Deformation in the Interior of Aged Ternary Aluminium-Magnesium-Zinc Alloys. By I. J. POLMEAR and I. F. BAINBRIDGE, Australian Defence Scientific Service (Aeronautical Research Laboratories), Melbourne | 1293 |
| The Effect of Viscosity on the Stability of Incompressible Magneto-hydrodynamic Systems. By A. HARE, University College of North Wales, Bangor | 1305 |
| The Change of Volume Produced by Martensitic Transformation in Lithium and Sodium. By Z. S. BASINSKI and L. VERDINI, Division of Pure Physics, National Research Council, Ottawa, Canada..... | 1311 |
| The Ductile-Brittle Transition in Ionic Solids. By T. L. JOHNSTON, R. J. STOKES and C. H. LI, Minneapolis-Honeywell Research Center, Hopkins, Minnesota, U.S.A. | 1316 |
| Scattering of Thermal Neutrons in Aluminium. By L. S. KOTHARI, Atomic Energy Establishment, Trombay, Apollo Pier Road, Bombay, India | 1325 |
| The Growth of Precipitates. By R. G. BAKER, D. G. BRANDON and J. NUTTING, Department of Metallurgy, Cambridge University..... | 1339 |
| The Thickness of the Saturated Helium Film above and below the λ -point. By L. G. GRIMES and L. C. JACKSON, H. H. Wills Physical Laboratory, University of Bristol | 1346 |
| Dislocation Loops in Neutron-irradiated Copper. By J. SILCOX and P. B. HIRSCH, Crystallographic Laboratory, Cavendish Laboratory, Cambridge | 1356 |

Correspondence :

| | |
|--|------|
| Temperature Dependence of the Strength of Zone Hardened Aluminium-Silver Alloys. By MORRIS E. FINE, Department of Metallurgy and Materials Science, The Technological Institute, Northwestern University, Evanston, Illinois | 1375 |
| On Stress-aided Cross-slip of Dislocations. By C. J. BALL, Department of Physics, Makerere College, Box 262 Kampala, Uganda | 1377 |
| The Dependence of Internal Friction on Frequency. By J. WILKS, Clarendon Laboratory, Oxford | 1379 |
| Detection of Equilibrium Vacancy Concentrations in Aluminium. By SOJI NENNO and J. W. KAUFFMAN. Department of Materials Science, Northwestern University, Evanston, Illinois, U.S.A. . . | 1382 |
| Reviews of Books | 1385 |
| Subject Index | 1389 |
| Index of Authors (with Titles) | 1394 |
| List of Contents | iii |
| List of Plates | xiii |

PLATES

- 1-5. Illustrative of S. NIKITINE's Paper on Experimental Investigations of Exciton Spectra in Ionic Crystals.
- 6-16. Illustrative of A. W. AGAR *et al.*'s Paper on Crystallinity Effects in the Electron Microscopy of Polyethylene.
- 17 & 18. Illustrative of B. H. KEAR and P. L. PRATT's Paper on Quench Hardening in Sodium Chloride Crystals.
- 19-29. Illustrative of J. SILCOX and P. B. HIRSCH's Paper on Direct Observations of Defects in Quenched Gold.
30. Illustrative of R. J. STOKES *et al.*'s Paper on Further Observations of Stroh-cracks in Magnesium Oxide Single Crystals.
31. Illustrative of M. W. THOMPSON's Paper on The Ejection of Atoms from Gold Crystals During Proton Irradiation.
- 32-35. Illustrative of A. S. PARASNIS and J. W. MITCHELL's Paper on Some Properties of Crystals of Silver Chloride containing Traces of Copper Chlorides.
- 36-41. Illustrative of F. C. FRANK *et al.*'s Paper on Observations on Single Crystals of an Isotactic Polyolefin: Morphology and Chain Packing in Poly-4-methyl-pentene-1.
42. Illustrative of C. WEAVER and R. M. HILL's Paper on Adhesion of Evaporated Aluminium Films with Underlayers of Nickel, Cobalt and Chromel.
- 43 & 44. Illustrative of D. W. PASHLEY's Paper on The Preparation of Smooth Single Crystal Surfaces of Silver by an Evaporation Technique.
- 45 & 46. Illustrative of D. W. PASHLEY's Paper on The Observation of Dislocations in Thin Single Crystal Films of Gold Prepared by Evaporation.
- 47-55. Illustrative of H. L. ALLSOPP and D. F. GIBBS's Paper on The Electromechanical Properties of Barium Titanate.
56. Illustrative of F. C. FRANK and A. R. LANG's Paper on Observation by x-ray Diffraction of Dislocations in a Diamond.
- 57-59. Illustrative of P. J. E. FORSYTH *et al.*'s Paper on Surface Growths and Whiskers on an Aluminium-Magnesium Alloy.
- 60-66. Illustrative of G. THOMAS and M. J. WHELAN's Paper on Helical Dislocations in Quenched Aluminium-4% Copper Alloys.
- 67 & 68. Illustrative of K. THOMAS and K. F. HALE's Paper on The Direct Observation of Metallic Surfaces in the Electron Microscope.
- 69 & 70. Illustrative of W. PITSCHE's Paper on The Martensite Transformation in Thin Foils of Iron-Nitrogen Alloys.
- 71-76. Illustrative of G. THOMAS's Paper on Observations of Dislocation and Precipitates in Aluminium Alloys.
- 77 & 78. Illustrative of D. HALL and D. E. RIMMER's Paper on The Growth of Grain-boundary Voids under Stress.
79. Illustrative of A. E. BROWN and E. G. RICHARDSON's Paper on The Propagation of Sound in a Binary Liquid Mixture.

- 80-85. Illustrative of P. B. HIRSCH *et al.*'s Paper on An Electron Microscope Study of Stainless Steel Deformed in Fatigue and Simple Tension.
- 86-91. Illustrative of E. O. HALL's Paper on The Silver-based Heusler Alloys.
92. Illustrative of A. R. LANG and G. MEYRICK's Paper on Dislocation Structures Observed in High-purity Recrystallized Aluminium by x-ray Diffraction.
- 93-98. Illustrative of T. EVANS and D. R. SCHWARZENBERGER's Paper on The Effect of Surface Films on the Slip of Substrates.
99. Illustrative of H. MYKURA's Paper on An Unusual Grain Boundary Diffusion Effect in Impure Nickel.
- 100-104. Illustrative of R. L. SEGALL and P. G. PARTRIDGE's Paper on Dislocation Arrangements in Aluminium Deformed in Tension or by Fatigue.
- 105-109. Illustrative of R. J. STOKES *et al.*'s Paper on The Relationship between Plastic Flow and the Fracture Mechanism in Magnesium Oxide Single Crystals.
110. Illustrative of M. A. GRACE *et al.*'s Paper on Nuclear Orientation and the Hyperfine Structure Coupling in Cobalt Metal.
- 111-116. Illustrative of K. E. PUTTICK's Paper on Ductile Fracture in Metals.
- 117-119. Illustrative of E. C. H. SILK and R. S. BARNES's Paper on Examination of Fission Fragment Tracks with an Electron Microscope.
120. Illustrative of R. W. DAVIDGE *et al.*'s Paper on The Generation of Point Defects by Deformation and Fatigue in Alkali Halides.
- 121-123. Illustrative of J. W. MATTHEWS's Paper on A Study of Growth Defects in Face-centred Cubic Metal Foils Prepared by Evaporation.
- 124-126. Illustrative of J. W. ALLEN's Paper on A New Mode of Deformation in Indium Antimonide.
- 127-131. Illustrative of M. PRUTTON's Paper on The Observation of Domain Structure in Magnetic Thin Films by Means of the Kerr Magneto-Optic Effect.
- 132-134. Illustrative of K. H. WESTMACOTT *et al.*'s Paper on Dislocation Sources in Quenched Aluminium-based Alloys.
135. Illustrative of D. G. HOLLOWAY's Paper on The Strength of Glass Fibres.
- 136 & 137. Illustrative of I. M. HOODLESS and S. J. THOMSON's Paper on Crystal Fine Structure, Conductivity and Cation Self-diffusion in Sodium Chloride.
138. Illustrative of JOY GEORGE's Paper on Dislocation Etch Pits in Zinc Crystals.
- 139-146. Illustrative of G. THOMAS's Paper on Quenching Defects in Binary Aluminium Alloys.
- 147-150. Illustrative of P. B. PRICE's Paper on Twinning in Cadmium Dendrites.

151. Illustrative of D. R. SCHWARZENBERGER's Paper on Accurate Determination of the Lattice Parameters of Beryllium.
152. Illustrative of D. EVANS *et al.*'s Paper on A Non-mesonic Decay of a ${}^A_{11}\text{B}$ Hyperfragment.
- 153 & 154. Illustrative of A. KELLY *et al.*'s Paper on The Plastic Deformation of Single Crystals of an Aluminium-Silver Alloy.
155. Illustrative of K. F. HULME and J. B. MULLIN's Paper on Facets and Anomalous Solute Distributions in Indium-Antimonide Crystals.
- 156-159. Illustrative of I. J. POLMEAR and I. F. BAINBRIDGE's Paper on Fatigue Deformation in the Interior of Aged Ternary Aluminium-Magnesium-Zinc Alloys.
- 160-162. Illustrative of T. L. JOHNSTON *et al.*'s Paper on The Ductile-Brittle Transition in Ionic Solids.
- 163-173. Illustrative of J. SILCOX and P. B. HIRSCH's Paper on Dislocation Loops in Neutron-irradiated Copper.
